

May 5, 1961

Spanish Fork City Corporation
Spanish Fork, Utah

Attention: Honorable Mayor Raymond Gull

Gentlemen:

It has been brought to our attention by the Spanish Fork River Commissioner, Mr. Lynn Mendenhall, that your diversion works are not adequate for proper measurement and control of your water.

It is imperative that you install a continuous water meter, (Sparling Meter or Measurite Meter) on the conveyance line from the Malcolm Springs to the old City water tank. We request the installation of this meter to be made on or before the 12th day of July, 1961. However, it would expediate the distribution of the Spanish Fork waters and greatly facilitate the delivery and proper control of the Spanish Fork City water, if this installation could be completed as soon as possible.

We know you will wish to cooperate in the installation of this meter; and your prompt cooperation is appreciated.

Yours very truly,

Donald C. Norseth,
Distribution Engineer

DCN:ek

CC: Mr. Lynn Mendenhall, Commissioner,
Spanish Fork River Distribution System
Box 28, R. F. D. #1,
Spanish Fork, Utah
